**IMPROVED RECOVERY
 WITHOUT MERCURY**

Recovery of All Precious Metals

No Mercury, No Cyanide

**iCON i150
 Concentrator**

iCON is a family of mineral processing products specifically designed to recover fine precious metals including Gold, Silver and Platinum. The product line includes concentrators, slurry pumps, vibrating screens and modular plants.

iCON was designed by the professional mineral processing engineers of Falcon concentrators. iCON has all the quality, reliability and performance you would expect from Canadian designed and patented equipment.

**iCON i350
 Concentrator**

Hard Rock

- Initial Processing of Hard Rock Ores
- Re-Processing of Hard Rock Tails
- Concentration of Ores for Regional Processing

Prospecting, Drilling, Sampling

- Analysis of Samples in the field. iCON is mobile and easily cleaned from sample to sample.
- Confidence in the full size distribution of your Gold

Alluvial and Dredging

- Primary Process when you know your Gold is too fine for a sluice
- Daily Upgrading of Sluice Concentrates

Remediation

- Recovery of Mercury from Tails

IGR Modular Plants for Alluvial and Clay

**IGR 1000 Plant
 Scrubber Plant for Clay**

- 🇨🇦 Engineered Scrubber Plants for Laterite/Saprolite Clays
- 🇨🇦 iCON products are in stock at Distributors around the world
- 🇨🇦 Sepro Mineral Systems is Now Open in Accra, Ghana!!
